It was just the wrong file - no data errors!

Greg said you had a good mtg today. **U.S. FOIA Exempt (b) (5)**

Now that the validation is complete, we are focused on report documenting the mass transfer calculations for a range of use scenarios. In parallel, Greg is responsible for a guidance document for using the LEAF methods for a range of scenarios. If you are interested in reviewing any of these documents, then let me know. We would welcome your input.

Kind regards-

Susan T.
